NOTES

- Everyone runs in ears, controlled by our rack/board. No monitors needed.
- For consistency, when possible, we prefer to use our own mics (drums, guitar, vocals).
- Splitter snake is in the In Ear rack. Inputs are labeled there. The FOH trunk is 30 feet and is labeled.
- Lead singer uses wireless microphone. Receiver is in the rack and already wire to the split snake.
- 4 boom stands
- Bass player runs a DI from his rack that is for FOH. Cab is for stage volume only.
- Acoustic uses a DI box (we provide)
